

SPACE-WARS GAME

How to play?

- * In this game you will use your keyboard to play. You are in a spaceship in the space and you go ahead or turn around whatever you want.
- * You just do not touch the asteroids. You must have killed them with your bullets.
- * You will fly and go ahead with 'W' keyboard key, and you will use 'D' for the rotation.
- * When you see an asteroid you immediately press 'ENTER' to kill it, because if you wont kill, it will come and kill you. Those are your enemies.
- * When you killed an asteroid, that will return you as score point . You can see your current score on the screen during the playing. If you killed all asteroids you get 1000 score because you will pass to new level.
- * Your first level starts with 0 and when you go on it increases.

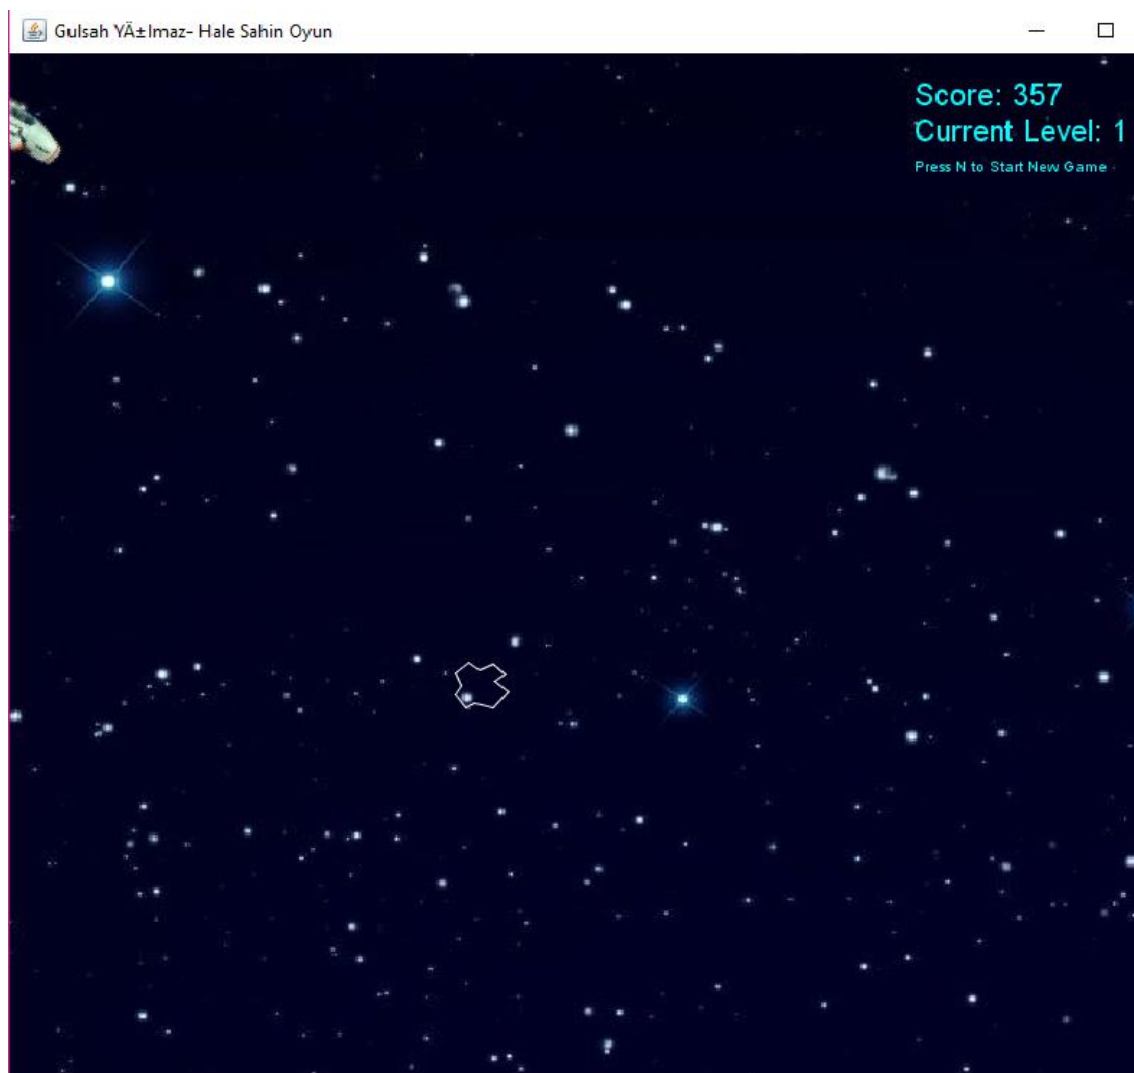

Image 1: The game with the show of score and level.

- * But if you killed by an asteroid your score will return 0 and you will start again.
- * If you get bored with this level, you can open game again with using keyboard key 'N', this will open a new game for you.
